Professional Summary

Technology Analyst with a solid background in Tier 2 support, server administration, and cloud infrastructure (Azure/M365). Currently pursuing a degree in Systems Analysis and Development, focusing on backend development, APIs, and AI-driven automation (N8N). Experienced in technical documentation and LGPD (Brazilian Data Protection Law) compliance. Seeking to leverage analytical skills and technical expertise in a software development role.

Work Experience

Trinity TI <i>L2 Support Analyst</i>	Rio de Janeiro, Brazil <i>Feb 2023 – Nov 2025</i>
--	--

- Managed Active Directory servers and collaborated with L3 developers to resolve critical system bugs.
- Oversaw network management, information security, and proactive LGPD compliance diagnostics.
- Developed automation scripts to optimize support workflows and maintained comprehensive technical documentation.

Trinity TI <i>IT Intern</i>	Rio de Janeiro, Brazil <i>Feb 2021 – Jan 2023</i>
---------------------------------------	--

- Maintained CRM systems and generated management performance reports to support business decisions.
- Provided Tier 1 technical support and assisted with daily IT operational demands.

Key Projects

AI-Powered CSS Generator (Llama-3) <i>Full Stack Project</i>	GitHub <i>2024 – Present</i>
--	---------------------------------

- Built a web tool utilizing the Groq API to generate CSS code automatically from natural language descriptions.
- Integrated Large Language Models (LLMs) to enhance interface automation and user experience (UX).

N8N Automations <i>Artificial Intelligence</i>	GitHub <i>2024</i>
--	-----------------------

- Designed and deployed intelligent workflows using N8N to automate complex business processes.

Technical Skills & Certifications

- Technologies:** JavaScript, Node.js (Express), Python, N8N, MySQL, Git/GitHub.
- Infrastructure:** Azure, Microsoft 365, Active Directory, Networking, and Information Security.
- Certifications:** Data Science (FGV), Applied AI (Daxus), Cybersecurity (Cisco).
- Languages:** English (Intermediate - Technical Reading/Writing); Portuguese (Native).
